V(H). Planned Program (External Factors)

External factors which affected outcomes

Appropriations changes

Government Regulations

Brief Explanation

The number of children/youth developing life skills and improving knowledge is estimated conservatively based on previous studies. The estimate is that at least 85% of 4-H club members accomplish these outcomes.

MSU overestimated the overall efforts we would undertake in this program. This has been addressed in the 2009-2013 and subsequent plans.
